- Efficiently managed multiple projects alongside full-time responsibilities, ensuring timely delivery and client satisfaction
- Implemented frontend solutions using React and React Native
- Developed backend services using Spring Boot and integrated with databases like Firebase and MongoDB
- Integrated AI features to enhance application functionality and user experience

03/2023 – present **Pulsarix Technologies,** *Software Developer* — Ghana

- Redesigned the company website, enhancing user experience and improving navigation for better engagement.
- Collaborated with cross-functional teams to deliver high-quality software solutions.
- Optimized website performance, resulting in faster load times and improved site responsiveness, contributing to higher conversions.
- Developed and maintained web applications using React and Spring Boot

EDUCATION

Software Engineering Bootcamp, *ALX*

08/2017 – 10/2021   **Natural Resources management,** *kwame*   kumasi, Ghana
Nkrumah University of Science and Technology

SKILLS

Frontend Development — React | Next JS | JavaScript | Bootstrap | Tailwind CSS

Mobile Engineering — React Native | Firebase | MongoDB

Backend Development — Java (SpringBoot) | FireBase | SupaBase

Soft Skills — Time Management | Collaborative | Attention to details

Cloud — AWS

PROJECTS

Cloud Quiz App, *A web app that prepares individuals for their cloud certification exams*
- Designed and built the user interface using React and Figma.
- Implemented Cloud Firestore for efficient data management and storage.
- Developed a comprehensive question bank covering various cloud certification topics.

TapCals, *Calorie Tracker and Distribution App*
- Designed and built a mobile app using React Native and Figma, ensuring a seamless user experience.
- Integrated AI to recommend food based on users' calorie intake, enhancing app functionality.
- Implemented data storage and retrieval systems to track user progress effectively.

Diaspora Connect, *A social media app for connecting the people in the Diaspora*
- Implemented the frontend using React, creating a responsive and user-friendly interface.
- Learned and applied Spring Boot for backend development, enhancing server-side capabilities.
- Integrated Firebase with custom-written backend, improving real-time data synchronization.

CERTIFICATION AND COURSES

AWS Cloud Essentials, *Amazon Web Service* ↗

Programming with JavaScript, *Coursera*

AWS Certified Cloud Practitioner, *AWS*
